1. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches the particular process of extracting carotenoids from plant material as specifically claimed and including, in particular, the process step of mixing the plant matter (having a Brix value greater than 10) with water to achieve Brix not greater than 10. In view of same, it would not have been obvious to one having ordinary skill in the art at the time of the invention to have employed such step in providing the benefits attributed to same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
